

How to Access Scout Training Online

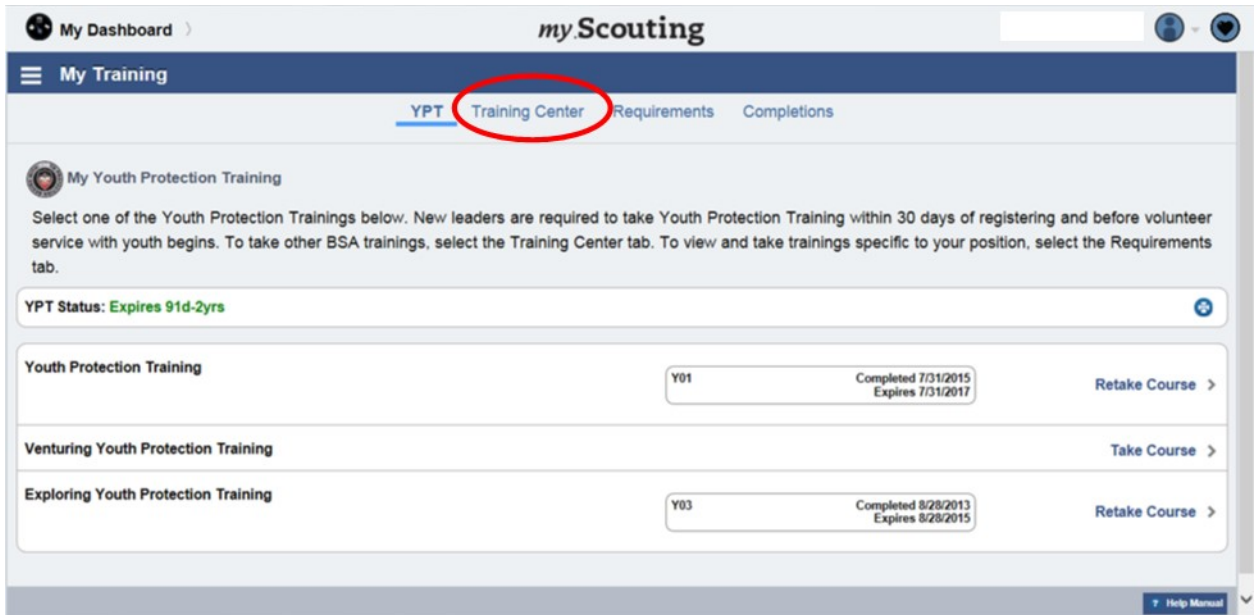

1. Log on to www.my.scouting.org. Your old log in credentials for myscouting.org should work at www.my.scouting.org. If you have never created an account, just follow the log in instructions to create a new account. You will want to have your Scouting ID number.

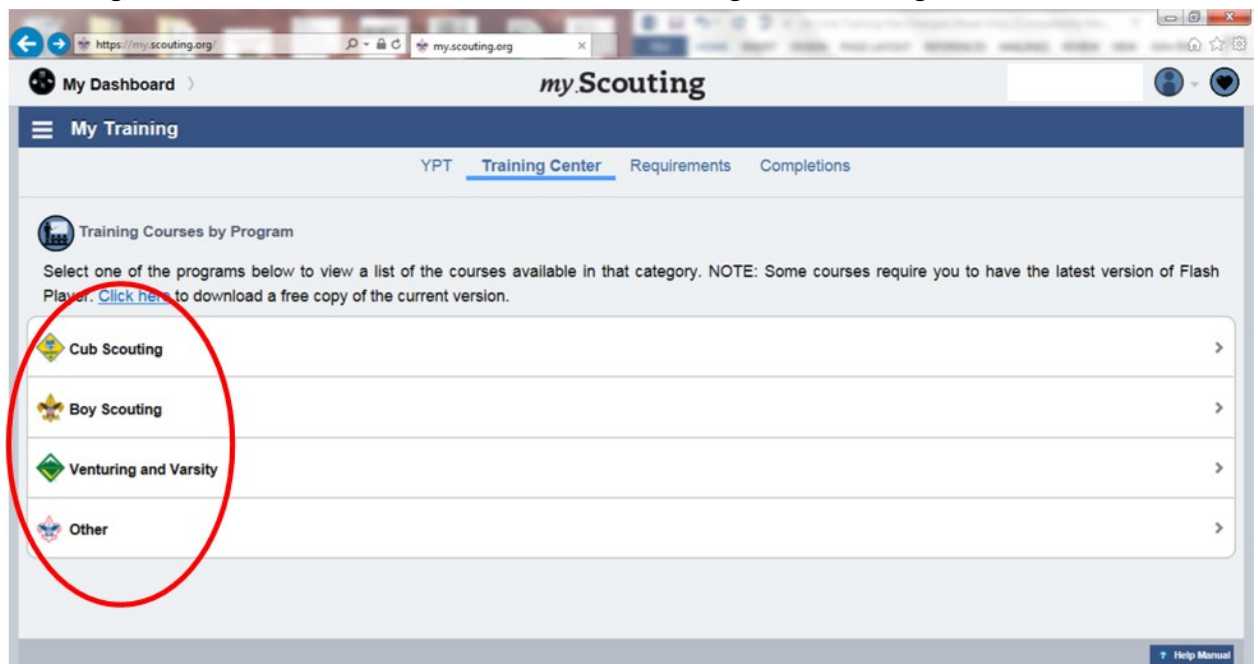

2. Click on Home in the upper left corner, and you will see a drop down list that includes My Dashboard. Select My Dashboard from the drop down list.

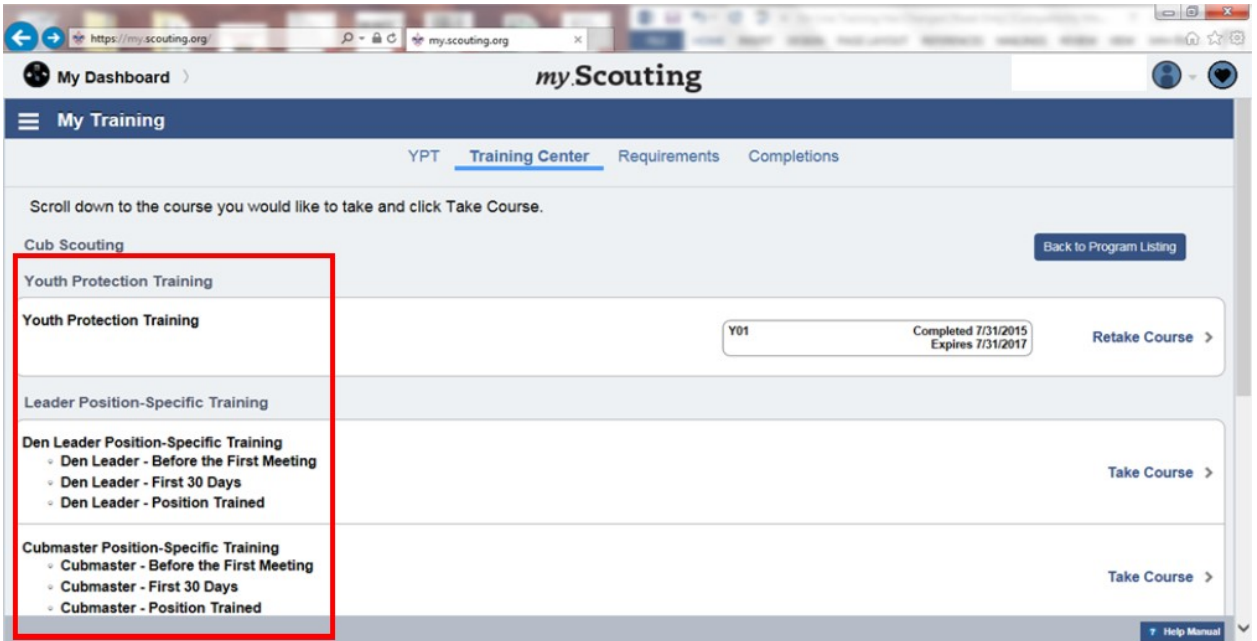

- When the page loads you will see 4 headings: Youth Protection (YPT), Training Center, Requirements and Completions. Select Training Center to see the available training courses by program.

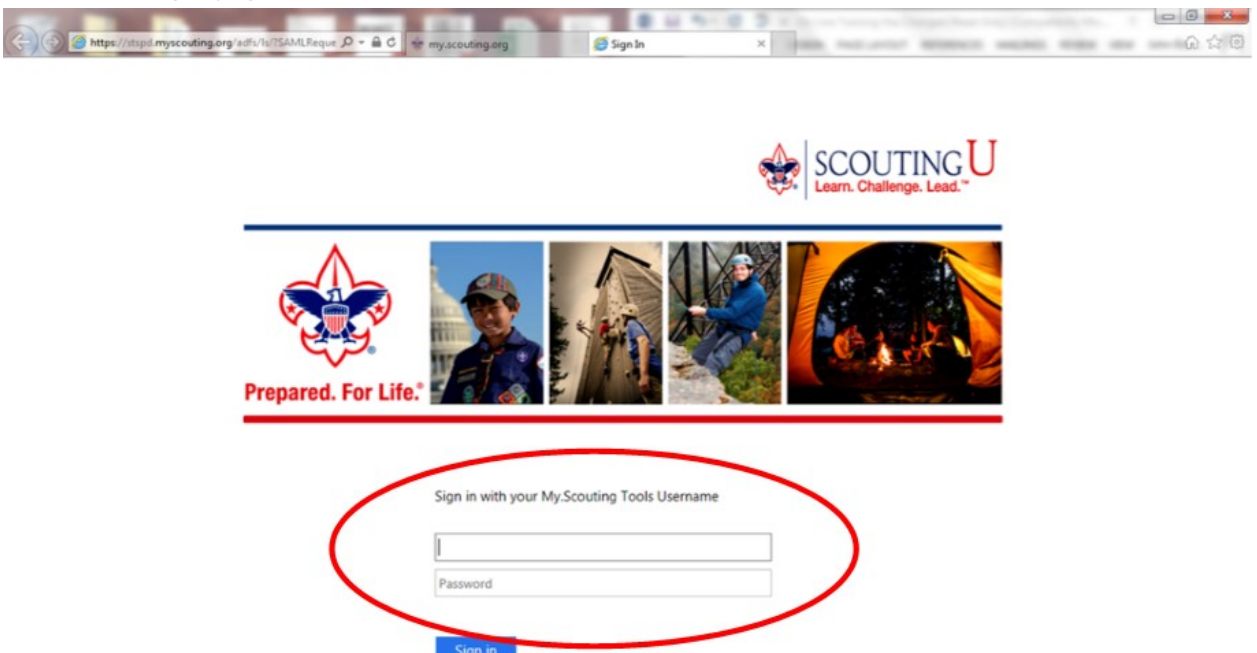

- Once you select the training center link let the page load and select Cub Scouting, Boy Scouting, Venturing, or Other from the list to view the different trainings in those categories.

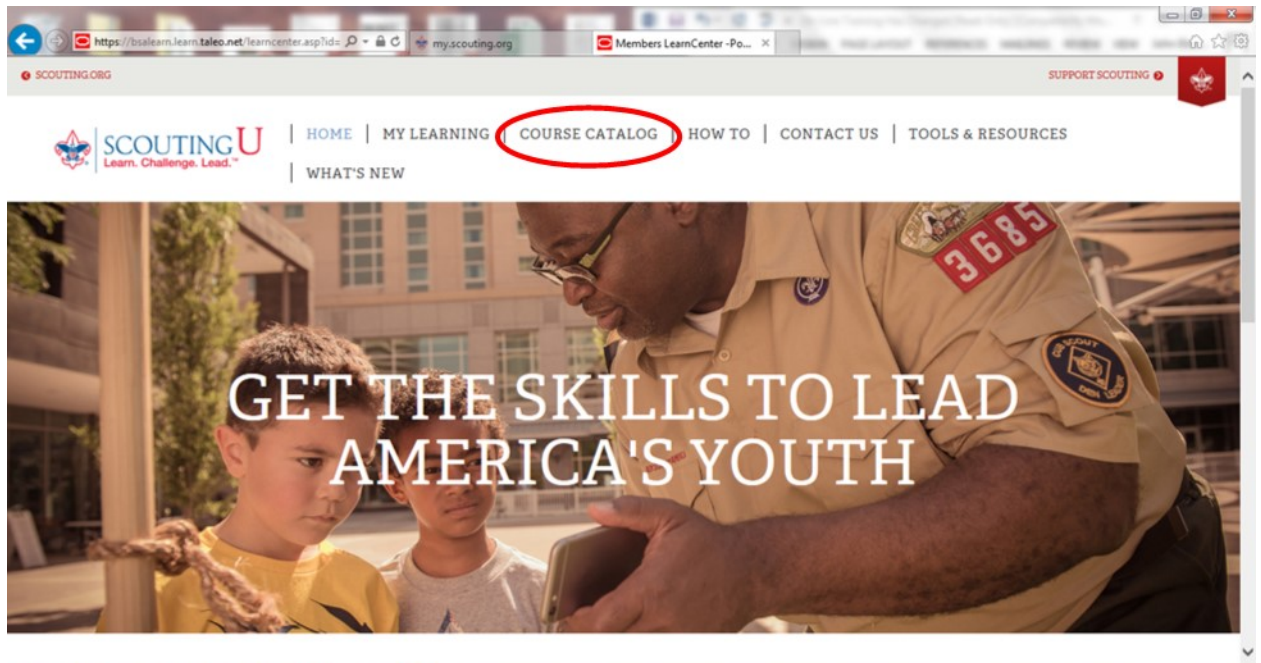

5. Once you have selected a category it will bring up all of the different courses that are available for that specific program. Click on one of the desired trainings that you would like to take.

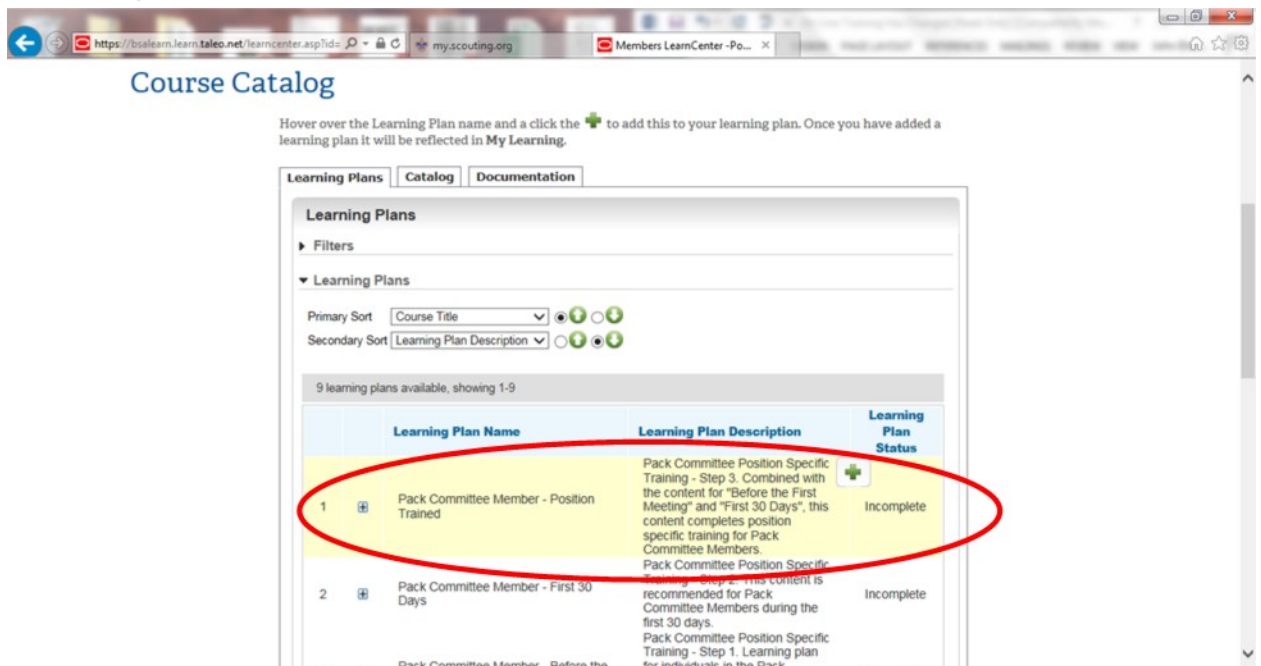

6. You should receive a sign in screen. Reenter your sign in credentials and follow the instructions at the Scouting U page.

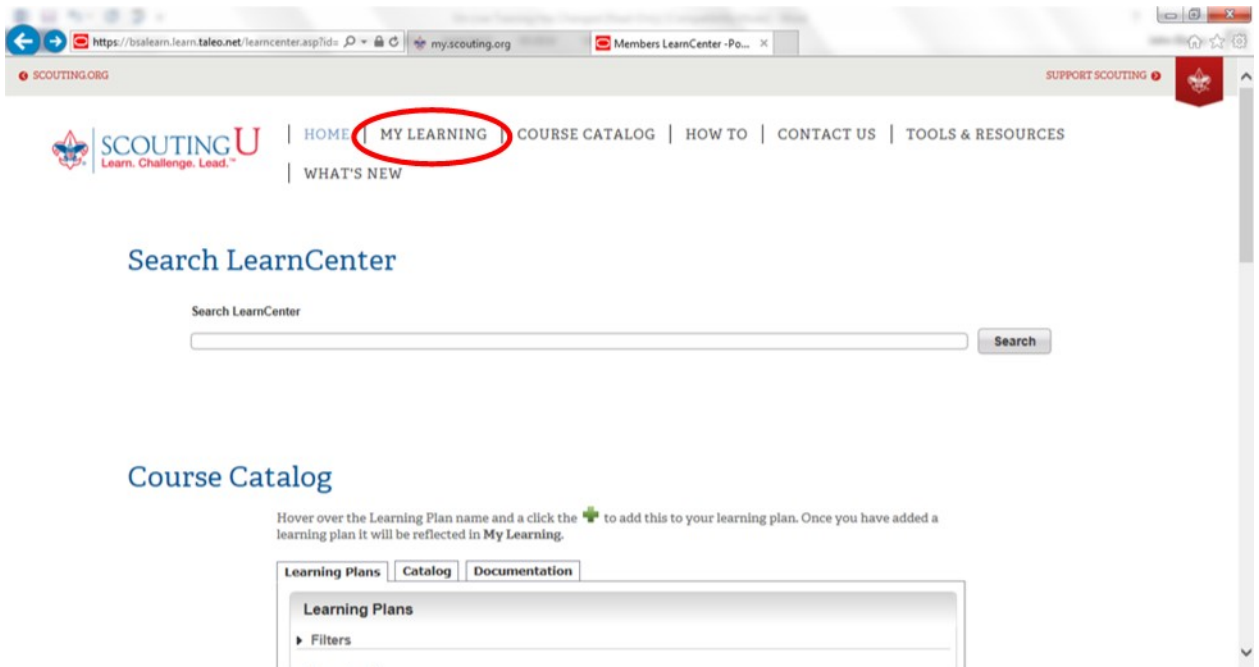

- You will then be taken to a general screen where you will have to select Course Catalog to start viewing the lesson plans for your position.

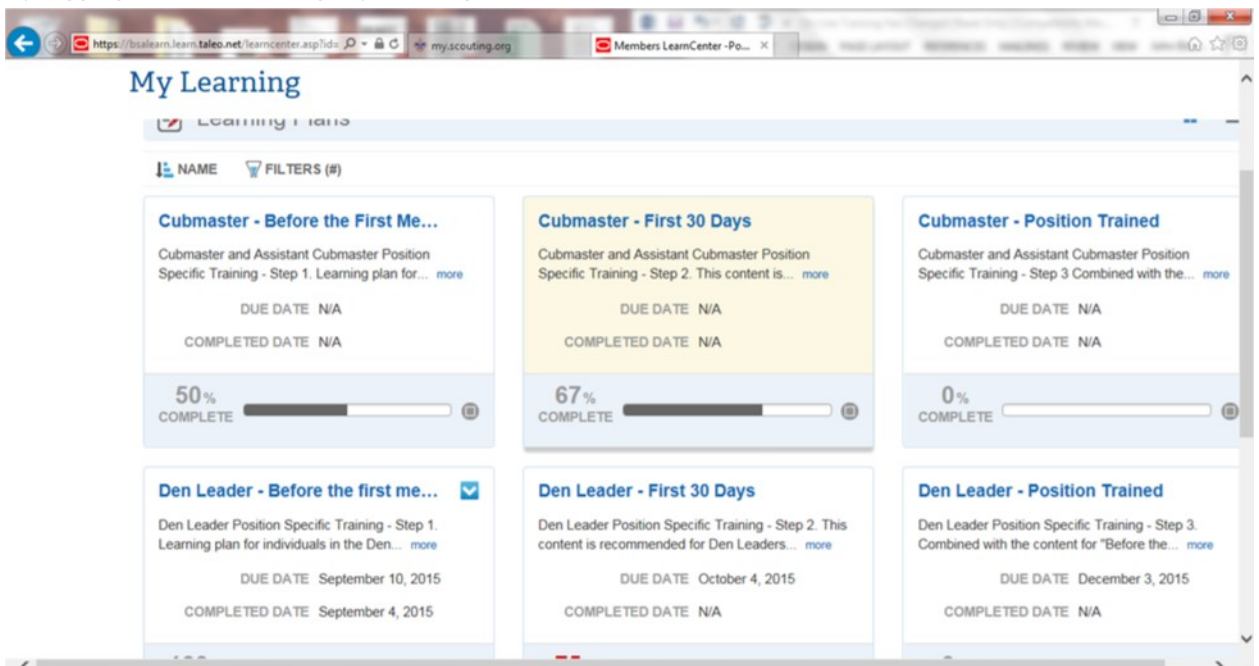

- You will create a learning plan for your selected training. To add your course to your personalized learning plan hover your cursor over the course name and click the plus sign. There are 3 different learning plans that need to be completed for each training. They are titled Before the First Meeting, The First 30 Day, and Position Trained. Each section has several modules to complete within it and all must be completed for you to get credit for that section of the training.

9. To get to your course, click on the My Learning link at the top of the page.

10. Select the section that you would like to begin working on by clicking the title of the section. When you have completed a section of the training, your personal training record will be updated. You may stop the training at any time and resume it where you left off at a later date by logging on and selecting my learning.

11. All sections must be 100% complete for the training to be recorded as complete.

If you have any questions about training please feel free to reach out to the Council Training Chair Mike Hassell mw.hass@comcast.net or the Council Staff Advisor for Training John Blasius john.blasius@scouting.org.
