

# Camp Tuckahoe Family Fishing Day

September 16<sup>th</sup> 2023 - 8:00 AM till 8:00 PM

*Make it a Family Fun Day,*  
**September 16<sup>th</sup>**

**Cub Scout** programs feature basic fishing skills instruction with special emphasis on safety. Instructional stations focus on “how-to” use fishing equipment, “how-to” rig tackle, baits and lures; and an introduction to conservation and stewardship, with a basic understanding of fishing regulations and why they are important.

**Scouts BSA** can work on requirements for their Fishing, Fly Fishing and Fish and Wildlife Management Merit Badges. Counselors will be available throughout the afternoon, to provide instruction and guidance on the requirements, and to sign off “blue cards.”

## *Leadership*

All Scouts must attend the event with a parent or guardian, or with two registered leaders. BSA’s “Buddy System” will be enforced; scouts must be with a parent or guardian or with their buddy for safety. *They need to know where their buddies are, and how they are...safe!*

Cub Scouts must always have adult supervision. It’s nice to know that adults won’t need a fishing license for this event. Loaner bait and tackle kits are available for adult leaders and instructors.
